

## **Next Steps of the PUC EIM Group**

*EIM meeting in Tempe*

---

Next steps since September 2012 meeting of the PUC EIM Group in Tempe, include:

1. The Northwest Power Pool Forum's (NWPP) quantitative analysis of the benefits and costs of an EIM and work on other Enhanced Market Operational Tools (EMT) measures.
2. The California ISO/PacifiCorp EIM agreement and EIM benefits analysis.
3. A comparison of the NREL, NWPP and California ISO/PacifiCorp EIM benefits analyses.
4. The ongoing work of the Southwest Variable Energy Resource Initiative (SVERI).
5. FERC's qualitative analysis of the reliability benefits of an EIM.
6. Updated market operator proposals from the California ISO and SPP.
