

## Spring 2022 WEIM Body of State Regulators Meeting

May 2, 2022

9:00 -11:30 a.m. Pacific Time

U.S Grant Hotel, San Diego, California

[\[Link to Webinar\]](#)

**9:00 – 9:15 a.m. Welcome and Introductions**

*Thad LeVar, Chair, WEIM Body of State Regulators*

**9:15 – 10:00 a.m. Extended Day-Ahead Market (EDAM) Straw Proposal – Overview**

*Mark Rothleder, Senior Vice President and Chief Operating Officer, California ISO [\[pdf\]](#)*

The California ISO has launched a stakeholder-led effort to evaluate extension of a day ahead market across the West, building upon broad regional collaboration and the benefits of the Western Energy Imbalance Market (WEIM) – a real time electricity market in the West. Mark Rothleder will provide an overview of the framework design of the *Extended Day Ahead Market (EDAM)* based upon the recently released EDAM straw proposal.

**10:00 – 10:45 a.m. Governance Review Committee – Update**

*Letha Tawney, Commissioner, Oregon Public Utility Commission*

The WEIM-BOSR representative on the California ISO Governance Review Committee (GRC) will update BOSR members on the on-going governance review process.

**10:45 – 11:30 a.m. EDAM Greenhouse Gas Accounting – Overview**

*Phil Pettingill, Director of Regional Integration, California ISO [\[pdf\]](#)  
Doug Howe, Representative, PUC MOU Group [\[pdf\]](#)*

As greenhouse gas (GHG) policies continue to evolve across the West, it is important to consider how emerging electricity market opportunities in the West can support compliance with a diverse mix of state clean and zero-carbon energy programs and account for various GHG cost and reporting requirement methodologies. Phil Pettingill will provide an overview of how the California ISO is working with regional stakeholders to consider GHG accounting in the context of the *Extended Day Ahead Market (EDAM)* design. Doug Howe will respond and discuss how state Renewable Portfolio Standard rules impact GHG accounting.

**11:30 a.m. Closing Remarks**
