# MGHGTf Vote on October 8

---

Finalizing GHG Protocols around:

- Imports and Exports
- Load Obligation
- Market Storage Resources (MSRs) and Multi-Configuration Resources (MCRs)

Most Impactful to MSC: Treatment of Unspecified Imports

- In some cases, SPP will not be able to determine the emissions factor
- CO and WA following closely – no plans to comment at this time

Additional GHG Subgroup Meetings

- BPA-Specific Issues
- Unspecified Emissions Factor
- Educational Session on MSRs/MCRs
